THE 30-SECOND PITCH

“GG gets local businesses found on Google and known in town. He builds websites, runs local SEO and ads, and handles social media and reviews, and every new client starts with a free audit.”

What I do

Websites. A clear, mobile-friendly site. Live in 14 or 30 days of receiving the content, depending on the plan.

Local SEO. Google Business Profile, local listings and service pages.

Google Ads. Search ads, with calls and form fills tracked.

Meta Ads. Facebook and Instagram ads aimed at people nearby.

Social & Reels. Posts and short videos, planned and published.

Graphic design. Logos, signs, flyers, ads and social graphics.

AI marketing automation. Follow-up, reminders and review requests.

Reviews management. Ask every customer for an honest review and reply.

Hear any of these? That’s a referral

“Nobody can find us on Google.”
Start with their Google profile and local SEO.

“I tried ads once. Never again.”
Look at what went wrong and set up tracking first.

“I'm embarrassed by my website.”
A clear site that makes it easy to call or book.

“I have no time for social media.”
We plan and post from photos and clips they have.

“We only have a few reviews.”
A simple way to ask every customer for an honest one.

“We just opened, moved or expanded.”
Website and a Google profile.

A great referral is

- An owner-run business in Middlesex County or nearby — or anywhere in the USA
- Hard to find or out of date online
- Just opened, expanded, moved or won an award
- Unhappy with a DIY site, or ads that didn't bring in calls

Not a fit

- National brands with in-house marketing teams
- Anyone who only wants the lowest-priced website
- Anyone who wants guaranteed rankings, bought reviews or fake followers
- Work outside digital marketing
